

Getting ready for cursive

Trace the gray pattern and write your own in the gap after it, all along the row. Then fill the empty line underneath.

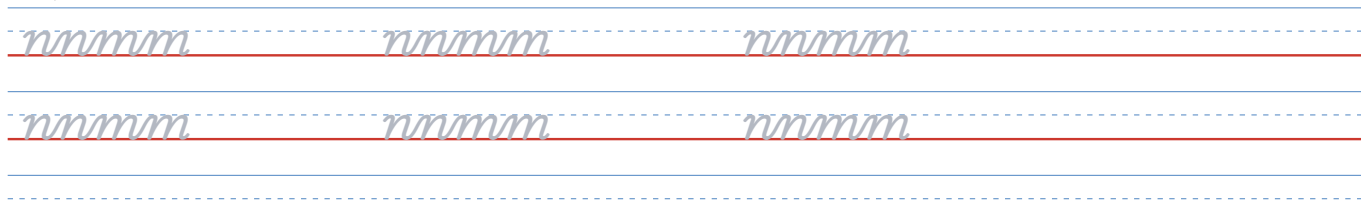

undercurve waves

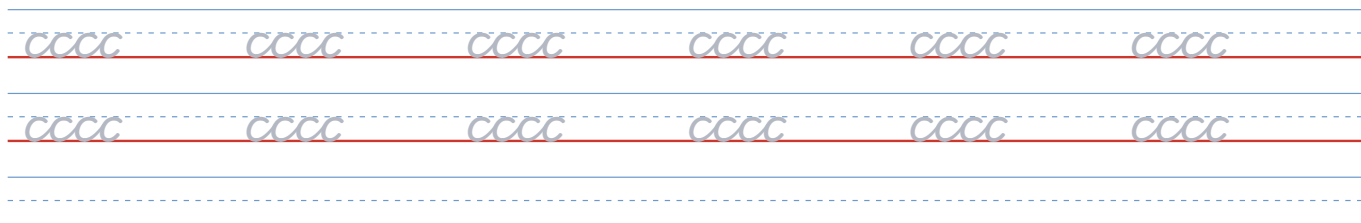

loops up

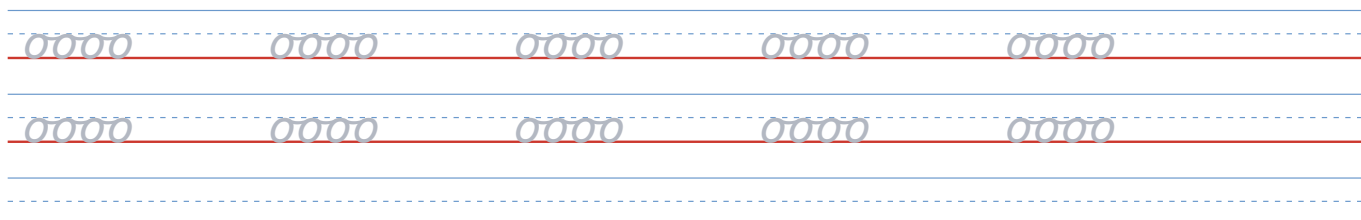

bumps over — n, then m

downcurve round

round and close

Trace each gray letter and write your own in the gap after it. Do the same with the joins and the words, then fill the empty line at the end of each block.

Circle your best word. Are your loops closed?

Do all your letters lean the same way?

Did your pencil stay down inside each word?

Sentences that use every join

Trace the gray sentence, then write it yourself on the line underneath. Keep your pencil down inside each word.

We like to go and see.

Blue and gold look good.

Come over and jump in.

My name is on the box.

The dog ran up the hill.

Put the jam in a jar.

Bees make honey all day.

Zip up your coat now.

Every letter joins the next.

Animals and nature

Trace the gray sentence, then write it yourself on the line underneath.

Hummingbird hearts beat 20 times a second.

Bees dance to show where the flowers are.

Crocodiles cannot stick out their tongues.

Sea otters hold hands while they sleep.

An ostrich's eye is bigger than its brain.

Starfish have no brain and no blood.

A blue whale's heart is as big as a go-kart.

Koalas sleep for up to twenty hours a day.

Polar bear hairs are clear, not white.

Science

Trace the gray sentence, then write it yourself on the line underneath.

Sunlight takes eight minutes to reach Earth.

Fingernails grow faster than toenails.

Water gets bigger when it freezes, so ice floats.

Diamonds and pencil lead are both carbon.

You can see a candle from over a mile away.

Glass is made from sand heated until it melts.

Hot-air balloons fly because hot air rises.

Sound travels faster through water than air.

You lose about fifty hairs every day.

Space and Earth

Trace the gray sentence, then write it yourself on the line underneath.

Neptune has the fastest winds of any planet.

Saturn is so light it would float in water.

There are more stars than grains of sand.

A year on Mercury is only 88 days long.

The ocean is deeper than Everest is tall.

Antarctica is the biggest desert in the world.

The Sahara desert was once green, with lakes.

Earth spins at about 1,000 miles per hour.

Venus, not Mercury, is the hottest planet.

Every letter, one sentence

Every letter of the alphabet, in one sentence. Trace each gray line, then write it yourself on the empty line.

Sentence 1

The quick brown fox jumps over the lazy dog.
The quick brown fox jumps over the lazy dog.
The quick brown fox jumps over the lazy dog.
The quick brown fox jumps over the lazy dog.
The quick brown fox jumps over the lazy dog.

Sentence 2

The five boxing wizards jump quickly.
The five boxing wizards jump quickly.
The five boxing wizards jump quickly.
The five boxing wizards jump quickly.
The five boxing wizards jump quickly.

Sentence 3

How quickly daft jumping zebras vex.
How quickly daft jumping zebras vex.
How quickly daft jumping zebras vex.
How quickly daft jumping zebras vex.
How quickly daft jumping zebras vex.

Trace the paragraph

The blue whale is the biggest animal that has ever lived. It is longer than three buses parked end to end. It feeds on tiny shrimp called krill, and it has no teeth at all.

Trace it again

The blue whale is the biggest animal that has ever lived. It is longer than three buses parked end to end. It feeds on tiny shrimp called krill, and it has no teeth at all.

Now write it out yourself

Handwriting practice lines for the paragraph.

Trace the paragraph

Honeybees talk by dancing. When a bee finds a patch of flowers, it flies home to the hive and dances in a figure of eight. The angle of the dance tells the other bees which way to fly. The length of it tells them how far they must go. Nobody worked this out until 1945.

Now write it out yourself

Handwriting practice lines for the paragraph.

Trace the paragraph

Light from the Sun takes eight minutes to reach the Earth. That means when you look at the Sun, you are seeing it as it was eight minutes ago. The stars are much farther away than the Sun. Some are so far that their light has been traveling for thousands of years before it reaches your eye. So when you look up at the night sky, you are not seeing the stars as they are now. You are looking back in time.

Now write it out yourself

Handwriting practice lines for the paragraph.

A thank-you note

Trace the gray words, then finish each line yourself. Write it to someone real, and give it to them.

The note

Dear

Thank you for

It was

Love,

Write another

Dear

Thank you for

It was

Love,

Your signature

Your signature is your name in your own cursive. Write it until it comes out the same every time.

Write your name in full

Handwriting practice lines for signature writing. The page contains 10 sets of horizontal lines. Each set consists of a solid red top line, a dashed blue middle line, and a solid red bottom line, providing a guide for letter height and placement.

Practice paper

Handwriting practice lines consisting of multiple sets of three horizontal lines (top solid blue, middle dashed blue, bottom solid red) for letter formation.

Practice paper

Handwriting practice lines consisting of multiple sets of three horizontal lines (top solid blue, middle dashed blue, bottom solid red) for letter formation.
